

The Lehi Department

Lehi Is Great Incubator For Making Sugar Men

LEHI RESIDENTS ARE HOLDING POSITIONS AS EXPERTS IN AT LEAST TWENTY SUGAR FACTORIES IN SIX STATES.

Lehi has probably produced more sugar making experts than any other city in America. The Lehi factory was the first beet sugar mill in the Inter-Mountain country and from it have grown the factories at Sugar City, Idaho Falls, Blackfoot, Grants Pass, Garland, Brigham, West Jordan, Spanfork, Payson, Elsinore, all owned by the Utah-Idaho Sugar

company. Several sugar men were reared up on the Lehi men acting as experts at other plants and the Lehi is really starting.

Spanish Fork—R. L. Howard will be superintendent, with Ira Taylor as foreman; T. R. Cutler, Jr., is a mechanic and Moshiah Evans is a chemist.

Brigham City—Charles Edwards is a new superintendent, with Joseph Kirkham and Dolph Wing as foremen. Frank Yearance will be a chemist, Wallace Edwards and Varney as sugar boilers. Horace Linden is a cashier.

Garland—Charles H. Edwards is a superintendent, David Dorton is a foreman, John T. Roberts is head of the R. L. Bush is cashier. Clarence Austin is agricultural Supt., and Rhodes Assistant Supt.

Sugar City—David Hodge is superintendent, with Douglas Scally and Taylor as his assistants. Alma Olson, James Stoddard and Aurelius are sugar boilers. Paul Gaddie is a mechanic and Mack Gaddie is a chemist.

Grants Pass, Oregon—Ed. Austin is agricultural superintendent.

Barley, Idaho—Apollas Thomas is superintendent, Joseph Cutler is a foreman and several other Lehi citizens are holding positions. Lawrence Peterson is a foreman.

Layton—George E. Kirkham is a foreman.

California—Nephth Gledhill is a superintendent at the Sugar factory. Jesse Groesbeck is a foreman at Oxnard. William McOmie is agricultural Supt., at another factory and Charles Woodhouse, Jr., is at the Huntington Beach

Payson—Elisha Brown is Supt. and Cutler is master mechanic.

Frank Ingalls is chemist.

At Idaho Falls—A. C. Pearson is Supt., Robert Stoddard is a foreman. Ellis Patterson is cashier, his son is a sugar boiler, Heber Austin is agricultural Supt. Richard Gough is a foreman and Leonard Pearson chemist.

At Blackfoot—James Trinnaman is master mechanic and Henry Smith is agricultural Supt., with his brother Ed. and son George as field men. Jas. Brown is sugar boiler.

At the Elsinore factory—Charles Crabb is Supt.

At Lewiston—Charles Woodhouse is a foreman and Charles St. Joer is a mechanic.

At West Jordan—Brigham Smoot is Supt., with W. C. Thomas and E. M. Olson as foremen. Arthur Webb is chief chemist.

Way off in Bay City, Mich.—Henry A. Valdez is general Supt., of two sugar factories for the German American Sugar Co.

In Colorado—Hyrum Timothy is general agricultural Supt., for several factories, with headquarters at Greeley, while his son, Virgil, is his assistant. John Comer is agricultural Supt. at Windsor, Colo. and Hector Brown is agricultural Supt. at Grand Junction plant.

The cutting station at Pleasant Grove will be superintended by John R. Bone and the one at Provo is in charge of Joseph Shaw.

These are all former Lehi residents. Besides this Thomas R. Cutler is general manager of the eleven factories above mentioned. George Austin is general agricultural Supt., George A. Smith is general purchasing agent. M. W. Ingalls is consulting engineer. Heber Cutler is general chemist. James H. Gardner is general consulting Supt., and Mark Austin is general manager for Idaho.

TH RELIEVES PATIENT SUFFERER

Sabey Passes Away Monday—General Services Held in Tabernacle Tuesday.

James Sabey, who has been a patient for some time, passed away Monday morning. His suffering was intense for several days prior to death. His parents were James and Jane Bone Sabey. He was born in Bedfordshire, England, June 2nd, 1858, and came to Utah with his parents when but two of age. About thirty years ago with his father-in-law, Jacob Sabey, he helped settle St. Johns, Utah, and lived there for three years. The balance of his life has been spent in Lehi.

He was survived by a wife, Amanda Sabey, three sons, Aaron, Jacob, and three daughters, Mrs. Joseph Gray, Mrs. Clara and Miss Lexie Sabey. His living relatives are William, Charles, and Marcell, and his sisters are Sarah J. Walker, Mrs. Hannah and Mrs. Ann Young.

General services were held in the tabernacle Thursday afternoon. Speakers were Hyrum Kirkham, P. Gurney, D. H. Alfred, and Bismarck H. Gardner. A duet was sung by Jennie Webb and Odesa and solos by Lillian Knudson and George Zimmerman. There were many beautiful floral tributes.

ER TRAPPING COYOTES.

Mr. Ritter, who is trapping coyotes for the government, writes in the paper that he is catching one of them, weighing one a day. He is to set traps and then

drag a piece of meat in different directions to the trap.

Recently he saw a coyote about 300 yards away and got off his horse to take a shot at him. The coyote saw Ritter and ran down an old road across which bait had been dragged. Coming to the scent the animal turned and walked directly into the trap while Mr. Ritter watched him.

Mr. Ritter says there are lots of prospectors looking for Tungsten near the Utah-Nevada line.

CROWDS AT SARATOGA

Saratoga has instantly jumped into favor with the auto public. It is reported that there were 200 automobiles at the resort Sunday, coming from all parts of the state. The receipts were greater than on a Fourth of July. Manager Cutler states that his 500 new bathing suits were all in use and he will duplicate the number this week, so as to take care of the growing crowds.

Joseph Nelson and family of Salt Lake were down one day this week. Mr. Nelson is manager of Saltair and stated that Saratoga would be a successful rival. The trip was in honor of Mr. Nelson's son, who leaves soon for a mission.

Yesterday several auto loads of parents of the boy scouts came down from Salt Lake and tomorrow many others are expected.

BOY SCOUTS AT SARATOGA.

Forty nine Boy Scouts from the Salt Lake Desert Gym, arrived in Lehi Monday, unloaded their traps at the D. & R. G. depot and hiked to Saratoga, where they will camp for two weeks, swim, boat ride, hike and do all the things that scouts do on these trips. They will do their own cooking on camp fires, take care of their own tents, etc., under the direction of R. W. Richardson, director of the gym.

LEHI MEN IN EUROPEAN WAR

A young man who arrived from Canada, this week states that about fifty had enlisted for the European war from Magrath. Among them who were formerly Lehi residents are William H. Gibb, William Evans, Fred Karren, Clyde Howes, Roy Harris and William Thomas. Mr. Thomas has already been doing trench work for the past year. Mr. Howes was refused entrance but the others were preparing to leave for the field of battle on the 15th of this month.

Ammon Mercer, Jr., formerly of American Fork and George Baxter formerly of Pleasant Grove are also due to leave with the same company.

Many young Canadians who are unwilling to fight the Germans are now located in Montana, Idaho and Utah though they could get double their present wages if back on the farms in Alberta, Canada.

BIG PUMPS START WORK

Seven Hundred and Fifty Second Feet of Water Being Lifted Into Jordan River—Other Plants Bring Total to Nine Hundred Second Feet.

Manager W. A. Knight Wednesday started the Jordan River pumping plant, lifting water from Utah Lake into Jordan River for the thirsty Salt Lake County farmers. Seven hundred and fifty second feet or 300 good irrigation streams are now being pumped. Part of this goes to Salt Lake to flush the city streets and irrigate gardens. Salt Lake also exchanges it with Parley Canyon and Emigration canyon water users, using the canyon water for their city mains. The Utah Copper Co. also uses some of the Utah Lake water in their bit reduction works at the Magna mill.

The lake's level was 4 of a foot above compromise when the pumps started and the river's normal flow was about 500 second feet. The lake has fallen 3 inches since one week ago. Since the pumps were closed last fall the lake has risen about three feet.

Mosida and the Utah Lake Irrigation Co. are pumping about 150 second feet and before the season is over there will be a total of over 1,000 second feet. 450,000 gallons per minute or 648,000,000 gallons per day being pumped from Utah Lake. This is said to be the biggest irrigation pumping plant in the world.

W. A. Knight is manager of the big plant and Fred Shelton is assistant manager. The other men employed are Clifford Willes, Harold Goodwin and Elsie Rhodes.

DO YOU KNOW OF ONE?

Do you know of a mail order house that has ever contributed one cent in taxes or otherwise toward defraying the expenses of this township?

Do you know of one that has ever contributed a cent toward our churches or our schools?

Do you know of one that has ever contributed a cent to the welfare of the community in any manner, shape or form?

Do you know of one that has done anything but pull money out of the community—money which never comes back?

If not, why do you continue to enrich people who never do anything for you and yours, and yet demand their pound of flesh in advance?

The politician who makes a famous speech that rings around the world becomes a great man and breaks into history. But the farmer who raises the biggest potato and the cleanest wheat is a boom to humanity and history never hears him. And yet we claim to be a just and impartial people!

MR. ADVERTISER.

Do you know that your advertisement in this paper goes into more homes than if placed in any other two papers in Utah County? It will get results.

LEHI WILL CELEBRATE

Committee of Nine Appointed to Arrange For Big Celebration on July 4th—Other Council Proceedings.

At the Council meeting held Tuesday evening a committee, consisting of Leo Goates, Chairman; O. A. Slade, A. J. Phillips, Ida Tharman, Leonard Peterson, W. E. Evans, Melvin Johnson, Mrs. H. C. Webb and A. L. Yates. A plan was discussed to give Lehi one of its biggest celebrations in history. Among the things included will be a big automobile parade. The general committee will work out the details.

Melvin Smuin was present and asked the Council about giving aid to the Smuin Military band. One dollar each was voted for their services on Decoration day and the committee will pay for the bands services on July 4th.

Mr. N. Byhower who planted the Wines Park was present and complimented Mayor Gurney on his success in getting the lawn grass started so successfully. He stated that not more than 25 of the trees will die and these will be replaced.

The Mayor, Attorney and Cemetery Committee will confer and devise the perpetual cemetery fund to take care of cemetery lots.

A vote was carried providing plowing up the city jail lot.

The committee on lights reported the installation of seven street lights in the Junction district.

An appropriation was made to purchase a bicycle for Marshal Southwick's use.

It is difficult to tell which dogs are licensed and which are not. Hereafter all those not wearing collars with official tags will be killed by the Marshal.

William Vaughan was given the contract to sprinkle the streets for \$2.74 per eight hours. Julius Otterstrom bid \$2.00 per day and John W. Chilton's bid was 45 cents per hour.

WALT MASON ON THE WAR.

The war is aging; it has been raging for nearly two long years; and what's the showing? An endless flowing of human blood and tears. Oh, tell the story of martial glory to captives of marines! Go forth and wander, in Europe yonder, and see what glory means! Go count the legions, in those red regions, of men whom war made blind, in blackness groping, and done with hoping for light they'll never find. Behold the shattered and torn and battered remains of once strong men, who looked for glory in meadows gory, and ne'er shall walk again. The war is sending its cripples wending back to their ruined farms, to beg, to borrow, to mourn, in sorrow, their missing legs and arms. This is the glory of which the hoary old harpers like to chant; but it's more charming to stay home farming, and rear the cabbage plant.

No job of printing is too small or too large for us. Phone 85 and we will do the rest.
